InsertBox Connect

Plastic Box InsertBox Connect

Individual packaging that can be connected to form sets. Ideal for the safe transport of high-quality indexable inserts (PCD/ CBN).

Material

- → Polypropylene (PP)
- → Polypropylene (PP) made from 100% recycled plastic (postconsumer recyclate)

Product Range

- → PP transparent or in a variety of attractive standard colors
- → also available made from 100% recycled plastic (postconsumer recyclate)
- → individual holding geometries and compartments possible on request

Product features InsertBox Connect

- → plastic box with or without center post for holding ISO indexable cutting inserts
- → the center post as well as distance rings in the base and lid prevent contact of the cutting edges with the packaging
- → two sizes and different holding geometries provide the optimal packaging for a wide variety of insert geometries
- → in the closed box, the pin is stabilized by an additional fixation in the lid and thus remains intact even in case of heavy impacts
- → the boxes can be connected to each other to form sets using a plug-in function on all sides
- → interconnected boxes form a plain, continuous surface for labels and inscriptions
- → secure integrated latch and hinged lid
- → suitable for automated processes
- → no packing and repacking of single units necessary
- → sturdy, oil and moisture resistant
- → sustainable, resealable, reusable and recyclable
- → excellent for stacking and storage

InsertBox Connect
